

Farmcal cubicle lime has been designed to control odour and maintain conditions in farm and livestock buildings such as:

- Cubicles
- Piggeries
- Stables
- Lambing Boxes
- General Feed areas

**Farmcal cubicle lime has many advantages**

- Finely ground for high surface area coverage and maximum absorption
- Does not have any grit particles so does not settle out in the base of tank and stays in suspension within the slurry
- Added fertilizer value for soil applied in slurry
- Neutralization of floor surfaces (inhibits against growth of pathogenic bacteria)
- Does not burn cow udders

**Product Specifications**

Calcium Carbonate	98%
Calcium as Ca	38.5%
Bulk Density	960kg/m <sup>3</sup>
Moisture	<0.3%

## High Purity Calcium Carbonates with Added Hydrated Lime

Farmcal Hydrated Blend Cubicle Lime is for use in livestock stalls. It is designed to provide high levels of protection against bacteria. The blend of high calcium limestone and hydrated lime will inhibit the growth of pathogenic bacteria, will aid the prevention of environmental mastitis whilst raising the PH value of farm effluents.

### Benefits:

- Helps to protect the herd from disease and infection
- Ready made blend for immediate use no mixing required
- Can help prevent environmental mastitis
- Hydrated content boosts bacteria kill
- Significantly raised pH value of farm effluents
- Labour saving (less stall maintenance)
- Highly absorbent
- Available in 1 tonne bulk bag
- Additional value as a source of lime when spreading

## High Purity Calcium Carbonates with Added Hydrated Lime and Pine Disinfectant

Farmcal Super 10 Hydrated Blend Cubicle Lime with added pine disinfectants is for use in livestock stalls. It is designed to provide high levels of protection against bacteria. The blend of high calcium limestone and hydrated lime with added pine disinfectant will inhibit the growth of pathogenic bacteria, will aid the prevention of environmental mastitis whilst raising the PH value of farm effluents.

- Added pine disinfectant for max killing power.
- Fresh pine smell

### Benefits:

- Helps to protect the herd from disease and infection
- Ready made blend for immediate use no mixing required
- Can help prevent environmental mastitis
- Hydrated content boosts bacteria kill
- Significantly raised pH value of farm effluents
- Labour saving (less stall maintenance)
- Highly absorbent
- Available in 1 tonne bulk bag
- Additional value as a source of lime when spreading

## High Purity Calcium Carbonates with Added Disinfectants

Farmcal Super Cubicle Lime is for use in livestock stalls. It is designed to quickly neutralise floor surfaces and inhibit the growth of pathogens: Straphylococci, E-Coli, Streptococci, Listeria, Salmonella and others.

**Farmcal Super Cubicle Lime is a mix of Bactericidal properties, with a dual function of killing bacteria and aiding in the control of:**

- Septicaemia, Diarrhoea, Foot disease
- Environmental mastitis
- Cost effective
- Organisms that infect sore and chapped teats
- Environmentally friendly
- Safe and easy to use, non-toxic (see web for MSDS sheet)
- No grit particles so does not cause settlement in slurry tank and fully soluble
